## NOTES, HINTS & TIPS:

- Before use, be sure to rinse the aquarium in tap water to remove any dust.
- Let the water sit for approximately 30 minutes before adding your Betta.
- Remember, your fish only requires a small amount of food. Refer to and follow the directions on your Betta fish food packet.
- Regular water changes and regular maintenance is highly recommended for keeping you Betta happy and healthy.
- Your Betta will live a long happy life if maintenance is carried out on a regular basis
  - A weekly 25% water change will ensure toxins do not build up in your tank. This reduces the risk of your fish getting sick.
  - Use Betta water conditioner anytime new water is added to the tank.

## WARNING AND DISCLAIMERS:

- Read and follow all safety instructions and important notices regarding this product.
