## Notes, Hints & Tips

- Many more colours available from Aqua One's gravel range. Ask your Kong's account manager for more details.
- To maintain optimum health for your fish, it is essential to clean the gravel regularly. At least once a month. The Aqua One ProVac Gravel Cleaner (#20132 - 20134) can help make cleaning time a breeze.

## Warnings & Disclaimers:

- Keep out the reach of children – Small objects may be swallowed.
- Wash thoroughly before use.
