### Notes, Hints and Tips :

- For full set up instructions, please refer to the instruction booklet included.
- Consider where you are going to place the aquarium. Keep it away from direct light or areas with large temperature fluctuations.
- Place the aquarium on a flat level surface strong enough to support its weight. We recommend a genuine Aqua One aquarium cabinet (sold separately) rather than general household furniture.
- An Aqua One heater and thermometer (not included) is required if you are setting up a tropical or saltwater aquarium. Refer to heater instructions for correct set up and positioning.

### Warnings and Disclaimers:

- It is important to follow the safety guidelines as set out in the instruction manual contained within the packaging of this product.
- This product is not intended for use by children or infirm persons without supervision.
- Do not use the appliance for reasons other than the intended use.
- The use of attachments that are not recommended or sold by the manufacturer may cause the product to be unsafe and should be avoided.
