The Aqua One Floating Magnetic Aquarium Glass Cleaner is the quick, no mess, no fuss way to clean your aquarium. You can keep your hands dry while the magnet removes algae from the aquarium glass.

The super strong magnet and non-slip handles makes cleaning a breeze, while the anti-scratch cleaning pads provides effective algae removal. The floating magnet ensures the magnet will never sink the bottom of your aquarium.

Suitable for: Coldwater, Tropical & Marine

Features & Benefits:

- Quick, clean and convenient
- Super strong magnets for use with glass thickness up to 16mm*
- Non-slip gripped handle improves cleaning action
- Anti-scratch cleaning pads – Highly efficient in removing algae from glass
- Float feature, to avoid lost magnets at the bottom of your aquarium
- Available in 4 sizes to suit the size and glass thickness of your aquarium
