25035C	Carbon Cartridge - 301 Series (2pk) 130c	\$2.95	\$5.00	1	100

25035C

### Notes, Hints & Tips:

- Wash the carbon cartridge in tap water before use. Do not use detergent or soap.
- It is important to never use tap water to clean filter components, as Chlorine/Chloramines in the tap water will wipe out biological bacteria and render the filter temporarily useless upon reconnection. It is recommended you fill a bucket of water (*providing the water is not dirty*) from your aquarium to rinse and clean filter components.
- Refer to maintenance tips provided in the instruction manual.

### Warning and Disclaimers:

- It is important to follow the safety guidelines as set out in the instruction manual contained within the packaging of this product. This appliance is not intended for use by children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.
- Do not use the appliance for reasons other than the intended use. The use of attachments that are not recommended or sold to the manufacturer may cause the product to be unsafe. This is not recommended.
