Notes, Hints & Tips

- For full set up instructions, please refer to the instruction booklet included.
- Always disconnect the heaters power supply prior to working on the aquarium.
- If removing the heater from the aquarium, turn it off at the power supply, wait 10-15 minutes to allow it to cool and then remove it from the aquarium.
- The heater should not come in contact with the gravel or substrate

Warnings & Disclaimers:

- It is important to follow the safety guidelines as set out in the instruction manual contained within the packaging of this product.
- This product is not intended for use by children or infirm persons without supervision.
- Do not use the appliance for reasons other than the intended use.
- The use of attachments that are not recommended or sold by the manufacturer may cause the product to be unsafe and should be avoided.
- A surge protector is recommended for all aquarium appliances.
